Thin Lightweight Material
- ① **As Seen On TV!**

FS6 is an advanced medical device manufactured to treat plantar fasciitis, heel pain and swelling using graduated zone compression technology. Finally no more bulky night splints. FS6 gives 24 hour Relief and Protection!

① Medical Grade Support ① Patent Pending Technology

Zone #1 Gentle Compression.
Flat and smooth forefoot with no ridges that can cause excess pressure.

Zone #2 Moderate Compression.
Graduated compression, loosening around the widening portion of the foot/arch.

Zone #3 Firm Compression.
Graduated compression firm enough to create venous system support, tissue stabilization and gently lift the plantar fascia ligaments.

Zone #4 Moderate Compression.
Anatomical turn for a deep heel pocket shaped to the in-step.. In-step release area on top with thinner fabric to minimize bunching.

Zone #5 Firm Compression.
Firm graduated compression provides leverage to the support of zone #3, and further boost to the venous system.

Zone #6 Gentle Compression.
Graduated and made in a wide, smooth knitted hem to further support circulation with non-binding comfort. Size printed inside hem!

Latex Free

Compression Foot Sleeve

FS 6
Prevention...Protection...RELIEF

Targeted support zones reduce swelling that cause pain, strengthen and support natural foot structure, and improve vascular foot health.

Breakthrough in Orthopedic and Compression Design:

- Wear comfortably under socks when active for extra support.
- Wear while sleeping to reduce morning heel pain.
- Easy care and long use.
- Not intended for use on broken or injured skin.

Podiatrist and Athlete Tested

Gently Lifts and Stretches Plantar Ligaments Without Pressure

- "Shaped to fit" design for anatomical fit
- Y-heel - deep heel pocket
- Smooth flat hem on forefoot
- Light compression on each end for non-binding
- 20-30 compression on each side of heel

Increases Circulation, Reduces Inflammation

- Stabilizes Muscle Tissue
- Wicks Moisture
- Easy 3 Minutes Hand Wash with Mild Soap, Best to Air Dry
- Wear While Sleeping to Reduce Morning Heel Pain
- Wear While Walking, Running or Workouts for Extra Protection
- Easily Fits Under Socks
- Can be Worn with Thong Sandals
- Perfect as Extra Support when using MINIMALIST or FIVE FINGER Type Shoes
